Education

KIET Group of Institutions, B.Tech in Computer Science and Engineering	Ghaziabad, Delhi-NCR
Sept 2023 – May 2027	
Lucknow Model School, Science	Lucknow, Uttar Pradesh
Apr 2021 – Mar 2022	

Experience

Full-Stack Developer (Personal and Client Projects)	Dec 2024 – Present
Remote	
- Built and deployed multiple full-stack applications including healthcare portals, video platforms, collaboration tools, and fintech dashboards. - Worked extensively with the MERN stack and Next.js using JavaScript and TypeScript for scalable frontend and backend development. - Implemented authentication and data layers using Clerk, Prisma, NeonDB, and Appwrite. - Designed responsive user interfaces using Tailwind CSS and developed RESTful APIs for client-server communication. - Delivered production-ready solutions including requirement gathering, development, deployment, and maintenance.	
Microsoft Learn Student Ambassador (Intern)	2024
Remote	
- Built and showcased real-world projects during internship challenges using modern web technologies. - Strengthened hands-on experience in full-stack development and cloud-integrated workflows.	
Web Development Lead, MLSA Community — Member, Technical Clubs	2023 – Present
Campus	
- Serving as Web Development Lead for the Microsoft Learn Student Ambassador community at the college level. - Active member of multiple technical clubs, contributing to collaborative web development initiatives.	

Projects

NASA Space Apps Challenge Project	2025
Next.js, TypeScript, AI, Vector Database, Data Visualization	
- Built an AI-powered system that ingests NASA research publications using APIs and indexes them via vector embeddings. - Enabled semantic search and intelligent question answering with insights delivered through interactive charts and visualizations.	
Banking and Finance Management System	Apr 2025 – Present
Next.js 14, TypeScript, Plaid, Dwolla, Appwrite, OAuth, Chart.js, Tailwind CSS	
- Developed a scalable fintech web application enabling multi-bank account integration, real-time transaction tracking, and peer-to-peer transfers. - Integrated Plaid APIs for secure financial data aggregation and Dwolla for payment processing workflows. - Implemented OAuth-based authentication, backend services with Appwrite, real-time analytics using Chart.js, and monitoring with Sentry.	
Freelance Services Marketplace Platform	2025
MongoDB, Express.js, React.js, Node.js, Cloudinary	
- Built a full-stack marketplace for service listings, reviews, and buyer-seller communication. - Developed scalable REST APIs using Express.js and MongoDB with Cloudinary-based media handling.	
Healthcare City Portal	Dec 2024 – Jan 2025
HTML, CSS, JavaScript, Node.js, Express.js, MongoDB	
- Built a web platform providing real-time information on hospitals, doctors, and pharmacies. - Implemented location-based filtering and medicine availability search functionality.	

Achievements

- Smart India Hackathon (SIH) 2025 — Institute-Level Finalist.
- Participated in 9+ hackathons building solutions across web development, AI, and system design.
- Two-time Department-Level Innotech Project Finalist.

Technical Skills

Languages: Java, Python, C, JavaScript, TypeScript, HTML, CSS, SQL, Bash
Frameworks and Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS, GSAP, TanStack Query (React Query)
Databases: MongoDB, SQL, NeonDB
Developer Tools: Git, VS Code, Postman, MongoDB Compass, Docker, Figma
Authentication and Payments: Clerk, OAuth, Stripe, Dwolla, Plaid
Backend and Cloud Services: Appwrite, Prisma, REST APIs
Monitoring and Analytics: Sentry
Other Skills: Responsive Web Design, UI/UX Principles
